

DS1307 I2C real-time clock

DS1307 I2C real time clock chip (RTC)

24C32 32K I2C EEPROM storage

LIR2032 rechargeable lithium battery with charging circuit

Solve the read/write problem of the DS1307 with spare battery.

After fully charged, it can provide one-year DS1307 timing.

Compact design, 27mm*28mm*8.4mm in size

Extract DS1307 clock pin, providing clock signal for the microcontroller
